

TITLE II JJDP FORMULA BLOCK GRANT PROGRAM

FUNDING PRIORITIES

Following the guidance of the Office of Juvenile Justice and Delinquency Prevention (OJJDP), the JJDP Advisory Board provides resources to prevent and respond to juvenile delinquency. The Board supports communities in their efforts to develop and implement effective and coordinated prevention and intervention programs and to improve the juvenile justice system so that it protects public safety, holds offenders accountable, and provides treatment and rehabilitative services tailored to the needs of juveniles and their families.

OJJDP strongly encourages applicants to visit the following websites to review evidence-based model programs:

1. OJJDP's Model Programs Guide – www.dsgonline.com/mpg_index.htm
2. Blueprints for Violence Prevention Program – www.colorado.edu/cspv/blueprints
3. Substance Abuse & Mental Health Services Administration (SAMHSA) – <http://modelprograms.samhsa.gov>

These websites are designed to assist practitioners and communities in implementing evidence-based prevention and intervention programs that cover the entire continuum of youth service from prevention through sanctions. The databases of evidence-based programs noted on the websites can be used to assist juvenile justice practitioners, administrators, and researchers to enhance accountability, ensure public safety, and reduce recidivism. These databases provide an easy-to-use tool that offers scientifically proven programs across the spectrum of youth services.

The JJDP Advisory Board will consider and recommend approval of funding for those programs that meet the requirements of the following Standard Federal Program areas:
